More than 400 guests and volunteers attended The Greater Richmond ARC's annual Ladybug Winetasting and Silent Auction at the Richmond Raceway Complex's Torque Club on April 5.

The event netted \$99,000, with proceeds benefiting The Greater Richmond ARC's Infant and Child Development program, which provides specialized therapies for children with developmental disabilities.

Overlooking the race track, The Torque Club was a luxurious setting for attendees to sample gourmet foods prepared by 10 local restaurants, as well as a selection of fine West Coast wines.

The silent auction included items such as a Richmond charm bracelet from Stevens Jewelers; a Skybox at a Flying Squirrels baseball game courtesy of The Wilton Companies; and a one-hour helicopter flight for three over Richmond donated by Advanced Therapy Products.

"We had a great turnout for a great event," said Erin Kasoff, ARC's coordinator for the Ladybug Winetasting. "This fundraiser helps support much-needed services for children with developmental disabilities who participate in our ARC program. We appreciate the companies whose donations made our silent auction a success, and are thankful for the support of the Richmond community at large."
